

November 3, 2010

Dear Bonnie and Anne,

Thank you for participating in the panel discussion "Home Heating & Energy Savings: What You Need to Know" at the Greenburgh Town Hall last week.

As the event producer, I was very impressed with the way you communicated technical information about energy audits and insulation to a lay audience clearly and succinctly. Your presentations were enlightening and well-received by the audience. I received positive feedback about your contribution from many of the attendees. In fact, I wish I knew about all the things of which you spoke before I bought my home last year!

I am in the process of assembling a panel for the next energy efficiency forum, tentatively scheduled for early October 2011, and would love for both of you to be on that panel. Stay tuned for details.

All the best,

Tara Frammer

Chief Creative Officer at Tara Frammer Design and Producer of *Heating & Energy Savings: What You Need to Know*, a Panel Presentation held at Greenburgh Town Hall, October 28, 2010
