May 2, 2011

Dear Bonnie

Thank you for all you have done to make the first ever White Plains Earth Week 2011 and the Sustain White Plains celebration a great success!

You were instrumental in coordinating the week-long series of thirty-plus events, programs and projects -- representing the first time in White Plains history that so many people and organizations joined together to celebrate, energize and advance the importance of green living and sustainability.

The excitement in the community was evident in the culminating event, Sustain White Plains, where you solicited and managed more than forty vendors including schools, residents, faith based organizations, local businesses, environmental agencies, corporations and local government to educate the public on environmental issues.

In gathering everyone together, you have helped spark a strong call to action and a commitment to the City's future environmental sustainability, enhancing its economic, social and cultural landscape.

I look forward to working with you on White Plains Earth Week 2012!

Sincerely,

Rick Ammirato
Executive Director
